FIVE FACTS YOU MIGHT NOT KNOW ABOUT APRIL

1 April Is Named for Aphrodite

April is named after the Greek goddess of love, Aphrodite. In the Roman calendar, the fourth month April is spelled Aprilis, meaning "to open." Festivals which were planned for April included Parrilla, a day celebrating the founding of Rome.

The name Aprilis, then, fits April, because in so many places in the northern hemisphere April is the month when trees and flowers begin to bloom and go on to flower.

2 April's Zodiac Signs Are Four-Legged Hooved Creatures

Two signs in the traditional Zodiac calendar fall in April, both of which are domestic animals, quadrupeds with cloven hoofs. People born in the first part of the month between March 21st and April 19th are said to be born under the sign of Aries the Ram, a Sun sign which is ruled by the planet and the Roman god of War, Mars. Those born from April 20th to May 20th are born under Taurus the Bull, an Earth sign who is ruled by the planet and the Roman goddess of love, Venus. No wonder people born on the cusp (between April 19th and 20th) are just confused.

3 April's Honorary Flowers are Daisies and Sweet Peas

Two flowers signify the month of April: the daisy and the sweet pea. The daisy symbolizes innocence, loyal love, and purity; but it also means "I'll never tell!" The oldest daisy on record is the Bellis perennis, known as Daeges eage (or Day's eye) in the Middle Ages because its petals close at night to cover the yellow center.

Today there are more than 90 varieties of flowers that are called daisies and they come in red, yellow, purple, orange, blue, and pink colored petals, and vary widely in size. But they are, as director/writer Nora Ephron once wrote, "the friendliest flower."

4 The Diamond Is April's Birth Stone

The birthstone for people born in April is the diamond, one of the hardest substances on earth, and one that formed deep in the earth, even if we don't know how long ago that happened. The word diamond comes from the early Greek word adamas, meaning untamable and related to our word adamant. That's because the Greeks knew a tough customer when they saw one. Among the earliest historical mentions of diamonds is found in the book of Exodus, where diamond (jahalom in Hebrew) is mentioned as one of twelve engraved precious stones set in the breastplate of the high priest.

5 Noah Webster Copyrighted the First Edition of His Dictionary in April

The famous language expert Noah Webster was a bit of an April fool: one of his dearest wishes was to reform English spelling for Americans, to make it simpler and more obvious. While millions of school children could definitely go for that; Webster's proposals included removing all double vowels. Bread would be spelled bred, friend would become frend; tuf for tuf, laf for laugh, kee for key, and speak for speak. He also wanted us to spell machine masheen and pique peek.
